"The preservation of the forests is of course, the matter of prime importance in every public reserve of this character. In this region of the Rocky Mountains and the Great Plains, the problem of the water supply is the most important part of the homemaker's office. Congress has not of recent years done anything more important than passing the irrigation bill, and nothing is more essential to the preservation of the water supply than the preservation of the water supply than the preservation of the forests. Montana has in its water power a source of development which has hardly been touched. This water power will be seriously impaired, if ample protection is not given the escorted to a gayly-decorated stand, where he delivered an address. Troops B and C of the Third Cavairy from Fort Yellowstone were drawn up in front of the stand as a guard of honor. Frank E. Smith, Grand Master, conducted the services. There was placed in the stone a picture of the President, a number of coins, copies of newspapers and Masonic emblems. The President, on behalf of the Masons of the State, was presented with a Masonic charm mounted on a nugget of Montana gold.

The President began his address by thanking the people and the soldiers for his enjoyable two weeks' holiday, and then spoke of the natural wonders of the park.

LONG ISLAND CITY, April 24.—[Exclusive Dispatch.] A suit brought by Adam Rocklein of Long Island City against Clarence Mackay, the Roslyn millionäire, in the Municipal Court for the recovery of a month's wages was settled today, out of court.

Nine servants in Mackay's house at Roslyn, five women and four men, drew up a remonstrance against the kind of food served to them, and petitioned for better. Rocklein, who presented the petition to the head butler, was discharged. Thereupon the other eight employés quit. Rocklein, soon after, began suit in the courts for the recovery of wages and \$5 expenses. When he went over to serve the summons on Mackay, in Manhattan, the latter paid the bill.

ST. LOUIS, April 24.—The sealed verdict returned last night by the jury before which Louis Decker a former member of the House of Delegates, has been tried on the charge of perjury in connection with the suburban franchise boodle legislation, found him guilty and imposed an imprisonment in the penitentiary for four years. The verdict was read in court today. Counsel for the defendant immediately applied for a new trial. Judge Ryan took the application under advisement.

#### DISTURBANCES IN FRANCE.

PARIS, April 24.—Manifestations PARIS, April 24.—Manifestations growing out of the dispersion of the congregations continue to be reported from the provinces. The most serious disorder of the day occurred this evening at Nantes, where mounted gendarmes were forced to charge several times to scatter a crowd of some three thousand persons. Twenty-three arrests were made, the Marquis De Dion, member of the Chamber, being among those apprehended. Dispatches from Grenoble say that the day passed quietly at the monastery of the Grande Chartreuse, where the monks are still barricaded.

The developments in the case of the St. Louis turf concern that was recently put out of business showed that somebody in the department was protecting such concerns by giving them advance information when investigations into their affairs were about to be made by postoffice fields. continued friction between the civil and military authorities of Leyte, Gov. Grant caustically criticises the administration of Gen. "Hell Roaring Jake" Smith, to whom had been accredited a determination to "burn and kill" until Samar would be a "howling wilderness." In addition to accusing Gen. Smith of suddenly, and without warning to him, withdrawing troops from fifteen towns and isolating them from communication with the rest of the island, Gov. Grant said:

"These and other minor abuses and indiscretions on the part of the military authorities aided largely in producing a state of demoralization and unrest amoing the people of the province, which made necessary a large force of constabulary to restore peace and order. As the result of the operations of the insurgents, the people lost confidence in the ability of the civil government to afford them protection, and believing that all of the military forces were to be withdrawn from the island, they sought the friendship of the insurgents."

It is known, however, that it covers exhaustively all phases of Catholic church questions in the Philippines, including the friar question, and the result of what is popularly known as the Aglipay movement. Aglipay is an insurgent priest who practically has renounced the authority of the Church of Rome and has organized what he terms the "Philippine Catholic Church." He has gained a large, and in some places, an influential following among the Filpinos. Chaplain Vattmann reports that while he does not incite open rebellion. Aglipay and his followers are not only opposing the authority of the Roman church in the shilippines. DECISION BY THE SECRETARY.

IBY THE ASSOCIATED PRESS—A.M.I

WASHINGTON, April 24.—The Secretary of the Interior has decided the various points in the controversy, smong landowners in the Sait River Valley in Arizona, over the terms on which they may secure water from the big reservoir the government is to build above Phoenix. The government having decided that when the reservoir shall be built, present owners shall have the preference to water, a dispute arose among those affected as to whether the government deal with them as individuals or as a community. The Secretary has decided in favor of the community idea.

He also holds that there shall be no preference on account of the age of accrued water rights, but directs that all landholders shall stand on the same basis in acquiring water from the reservoirs. Expenses of maintaining the works will be distributed in proportion to acreage, and mortgages must be given to secure the repayment to the government of the funds expended in the construction of the works. The rullings in this case establish important precedents.

#### CHINA. CONTROL OF MANCHURIA

Russia Viclates Her Repeat ed Premises to Us.

Nevertheless There Appears no Prospects of War.

Will Be no Additional Treaty Ports if Plan Succeeds-Powers Helpless.

IBY THE ASSOCIATED PRESS-A.M.1 WASHINGTON, April 24.—Minister Conger, from Peking, has cabled to Secretary Hay a synopsis of the demands made upon China by Russia re-specting the control of Manchuria. This account agrees precisely with the full and accurate press reports of Russia's last coup from the Chinese capital. Secretary Hay will take no action in the matter until he has com-municated the facts to the President

and has learned the latter's wishes.

The political impression here is that
the Russian action is a distinct breach
of faith with the United States. The Russian government pledged liself three times formally, and the docu-ments are of record, that the "open door" should be maintained in Man churia and the Russian troops would be withdrawn as soon as peace was re-stored. Finally, the latter promise took the shape of a treaty stipulation. It was provided that the evacuation should take place within three distinct periods. The last Russian soldier should have quit Manchuria on the 8th of this month, according to that treaty. But the plausible explanation for a

But the plausible explanation for a temporary retention of the remaining Russian troops was offered by Russia in the claim that the country was still disturbed and that vigorous military methods were necessary in the interest of sanitation.

Officials declare that there is no danger of war with Russia over this incident. The government of the United States has recorded its ideas of what should be done in Manchuria, and as the result of Secretary's Hay's projected conference with the President, it is probable that a further remonstrance will be added. But it is anticipated that Russia will, for the time being at least, allay foreign opposition, or at least that of the United States, by carrying out its pleage as to the "open door."

least allay foreign opposition, or at least that of the United States, by carrying out its pleshe as to the "open door."

There will be no additional treaty ports in Manchuria if Russia succeeds in this last move. Newchwang, however, is still a treaty port and when Russia makes a further move of applying her customs system to that port, its products may enter there at the same uniform rate of 5 per cent, dutyras are collected in the Southern Chinese ports. An official of the government well informed regarding Chinese affairs, says that the step taken by Russia is one for which she has been preparing for a number of years. Extraordinary as it may seem, he says, there appears to be no way of preventing the consummation of Russia's plan. Japan is, in no position to dispute the action, and even with the assistance of England it is doubtful, in his opinion, whether the purpose of Russia could be changed.

As to the interest of this government, he said, it was doubtful whether the United States could look with favor upon the far greater control of the Pacific Ocean which the new move would give Russia. He had no doubt that Russia would eventually apply the Russian tariff to the new territory, in which case the United States would endeavor to sell the Russians raw materials for manufacture in place of the finished products which now go to that part of China. He said there had been great development in Manchuria under the Russian auspices during the past few years, especially in the last eight months. Immense sums of money, he said, have been spent in building railroads, bridges and other works to improve transportation routes and build up industries. This was especially the case at Dainy, the port about forty, which was discussed in correspondence between the United States and Russian governments in 1899.

When Russia leased for twenty-five years certain Chinese ports, assurances were given Ambassador Tower, calling attention to the categorical assurances

To make this more emphatic, secretary Hay, September 6, addressed a letter to Ambassador Tower, calling attention to the categorical assurances given his predecessor by Russia when she leased the ports of Port Arthur, Ta Lien Wan and the adjacent territory on the Liao Tung peninsula. December 18, 1898, Count Muravieff replied

Lien Wan and the adjacent territory on the Liao Tung peninsula. December 18, 1899, Count Muravieff replied to Secretary Hay's note, saying that the imperial government had demonstrated its firm intention to follow the policy of the "open door." In the same note the Count said that as to other territory the fixing of duties belong to China itself, and the "imperial government has no intention of claiming privileges for its own subjects to the exclusion of other foreigners."

The Count said: "The imperial government is happy to have complied with the wishes of the American government."

the wishes of the American government."

Count Cassini, the Russian Ambassador, here, said concerning the announcement made in the dispatches from Peking relative to conditions which Russia has named to China: "I have not yet received official news and, in consequence, cannot discuss the points mentioned in the dispatches.' I can say, generally speaking, however, that it is only natural that Russia, before evacuating Manchuria, should take measures to prevent a repetition of the troubles of 1900, as well as to insure in that country her political influence, which was never contested, owing to its geographical position."

In answer to questions as to how the proposed terms named in the dispatch from Peking would affect American trade interests in Manchuria, the Ambassador, repeating that he could not discuss the details of the terms mentioned in the dispatches, said he had not been officially advised of them, adding: "The assurances which Russia has given on different occasions relative to the security of American trade interests in Manchuria continue in ful force and could not be otherwise construed."

The dispatches from Peking announcing the terms which Russia has named

Expenses of maintaining the works will be distributed in proportion to acreage, and mortgages must be given to secure the repayment to the government of the funds expended in the construction of the works. The ruings in this case establish important precedents.

The proposed reservoir is expected to irrigate 200.000 acres of hand available for growing citrus fruits.

withhold acquiescence to the Russian terms is that Russia had made, as one of the conditions precedent to the evacuation of Newchwang and the two southern provinces of Manchuria, the condition that there shall be no new treaty ports in Manchuria, whereas the draft of the new commercial treaty between the United States and China provides for the opening of Mukden and Taku Shan as treaty ports. The date for Russia's withdrawal from Newchwang was April 8, but it is not known here just how long before that date Russia communicated the demands to China which were announced in the Peking dispatches this morning, and it is not, therefore, known whether the proposals relative to treaty ports antedate the drafting of the American-Chinese commercial treaty. Light, on this point is now of especial interest. Under the terms of the Manchurian convention, the final evacuation of Manchuria by Russia is to take place next September, therefore the diplomatic representative of the powers in interest in the Orient will closely watch developments since the determination of the present issue will materially afinterest in the Orient will closely watch developments since the determination of the present issue will materially affect the final step. It is not expected in diplomatic quarters that any representations will be made by the powers affected by the Russian demands to Russia direct, but rather to the Chinese government. This would as effectually apprise Russia of the views of the powers moving in the matter as if a note should be directed to the Russian Foreign Office.

April 24.—Travelers who have arrived here recently ers who have arrived here recently from North China, including well-post-ed army officers state that Japanese engineers, disguised as laborers or commercial men have large quantities of explosives stored at various places along the Russian Railway ready to blow up the line if war was declared between Japan and Russia.

Russia is also reported to have been making warlike preparations.

LEGATIONS NOT ALARMED. LONDON, April 25.—Cabling from LONDON, April 25.—Cabling from Peking, the correspondent of the Times confirms the statement that there is no justification for the alarmist reports and rumors that the legations anticipate outbreaks and are preparing for trouble. PRINCE CHING'S ATTITUDE IBY THE ASSOCIATED PRESS-P.M.1 PEKING, April 24 .- According to the PEKING, April 24.—According to the Chinese story, when Prince Ching, the grand secretary, received the Russian demiands, he returned the document to M. Plancon, refusing to consider them. W. B. Townley, first secretary of the British legation, and Ouchida Yusuya, the Japanese Minister, counseled Prince Ching to remain firm and to insist upon the restoration of Manchuria according to agreement, which stipulates that the Chinese government shall be replaced in Manchuria in all respects as it was

Chinese government shall be replaced in Manchurla in all respects as it was before the war.

The United States has not yet taken formal action in the premises. Japan is more strongly opposed than any other power to Russias aggression, but it is not believed here that she will go to the length of war.

The policy of Russian Ambassadors abroad and of St. Petersburgh in fostering reports that China was on the eve of insurrection has been watched here for some time past with much interest as attempts to create the impression that Russia was justified in holding Manchuria.

United States Minister Conger has been annoyed by the repeated newspaper reports that he has reported to Washington that he expected an uprising and an attack upon the legations. All his reports have been of a directly opposite tenor; he has sent nothing that could possibly be construed in an alarmist tone.

Count Bornstorff, first secretary of the German Embassy, said: "While German is a friend and supporter of the 'open door,' our interests in Manchuria are scarcely sufficiently important to justify our interference."

Both on account of the international political conditions and King Edward's approaching visit to Paris, where Russian sympathy is strong, the announcement from Peking came like a bombshell to London. It is discussed with much reserve.

Nothing definite will result until Wednesday of next week or later. Lord Lansdowne is moving slowly on account of lack of information and because he realizes that Great Britain has her hands full, owing to the troubles in Somalliand, the government's attitude and the matter of the Bagdad Raliroad, the differences in South Africa and party disaffection. The Foreign Secretary has been warned not to take any steps to embroil Great Britain in unnecessary trouble. There does not appear to be the slightest hesitation, however, in joining the United States and Japan in a joint protest in the event of confirmation of the construction which has been placed on Russia's attitude.

In view of the latest developments in Manchuria, the naval strength of the various powers in Chinese waters becomes interesting. The Russian feet has been gradually increased, until it now numbers forty-two vessels. France has thirty-one ships and twenty others in India and Cochin China waters. Great Britain, at last account, had thirty-seven war vessels in Chinese waters and Germany seventeen. The Kentucky and Oregon are the only American battleships on the Asiatic station, but there are twenty-four other smaller American warshas, including two monitors and some small gunboats in Philippine waters. Japan has a strong naval force on the coast.

"The Physical Aspect of the Philippines," at the social meeting of John
D. Rockefeller's Bible class in the

Fifth Avenue Baptist Church last evening, gave some of the reasons for the fampaign against the Moros. He said in part:

"In February last year, after we had had soldiers killed, shot down in the outskirts of camp by natives we were trying to treat with kindness, we saw that there was no other way than force. I went down to the Moros' country in person to investigate, and ultimately went to the dattos and demanded some of the murderers of our soldiers. It was on May 2 that Gen. Baldwin took the fort of the datto, who was

in lent, and refused to surrender the prisoners.

"We did not get on very good terms with these Moros. They are a very suspicious people, and want to be let alone. For the matter of that, we did not want to disturb their religion or their customs, except where, in the latter respect, we could help them. You have recently heard of Capt. Pershing who is in the Moro country now. Well, to illustrate, I may say that there was one Sultan whom Capt. Pershing had invited time and time again to come and talk with him, and instead of coming, the Sultan kept fortifying himself all the year, and finally waved his old red flag to us and dared us to come on. We came and the Sultan is not there any more."

#### Roosevelt's Trip.

The Pennsylvania Railway's red map outlining President Roosevelt's 14,000-mile journey, would indicate that he wants to spend most of his time on the line along which he ranched and hunted during the earlier, if not more strenuous, years of his life. The itinerary shows the President's special will use the Northern Pacific Railroad for 1000 miles, which is the greatest mileage on any one road. Like thousands of his countrymen, his objective point seems to be National Yellowstone Park, the playground of the people, where he will spend fourteen days, doing the park probably on snow shoes. Leut. Schwatka and Haynes, park photographer, tried this in 1855, but Schwatka abandoned it at Norris Geyser Basin. Haynes made the tour, securing some wonderful winter pictures. SAN FRANCISCO, April 24.—The missionary conference of the seventh district of the Ep. opal Church was resumed at St. Paul's Church today, when the utmost interest was shown by a large attendance of bishops, clergy, laymen and women.

The cause of missionary work was treated with enthusiasm, and energetic speeches were delivered by Bishop eLonard, Bishop Johnson, Rev. Parsons and Very Rev. Dean Eddy. The topics, "Appointment," and "Appropriations," were introduced by W. A. M. Van Bokkelen, and after several addresses it was voted to defer settlement of the question until the next conference.

A recess was taken, the members of the conference and the Women's Auxiliary meeting later at St. Luke's Church. Bishop Funsten presided at the session. The church was crowded with men and women, and the choir and congregation joined hymns after each address. The speeches were all devoted to the work done by the women's auxiliaries in the seventh district.

TRIUMPH OF SMALL SHIPPERS.

BY THE ASSOCIATED PRESS—A.M.1
CHICAGO, April 24.—Judge Gross
up today entered an order in th ited States Court of Appeals en-ning six railroad companies from criminating against small shippers

iscriminating against small shippers the western territory. The decision especially important, as being the rat under the Eikins law.

The government, according to the desion, is entitled to the injunction gainst the defendant railroads under the commerce act as well as the Eikins it. The ruling applies to fouren railroads which were coved by proceedings instituted in a Federal court. Six of these ampanies were defendants in the cal court, the others are under in jurisdiction of the Kansas City added Court. Judge Grosscup ansured that he and Judge Phillips are of one mind relative to all the sints involved.

The decision holds that the government has the right to being an action on the state right to being an action of the state right to being an action of the state of the state

points involved.

The decision holds that the government has the right to bring an action in equity to restrain railroad companies from discriminating, either by furnishing lower rates or giving relates to favored shippers. It further deciances that while each injured citizen has a right to such relief in his own behalf in cases like those under consideration, the injured persons are so numerous and the injury to each is so infinitesimal that it is the duty of the government to act for them under the power specifically conferred by the statutes. The Elkins law is held to be simply declaratory of the substantive rights which existed before an injunction would lie under the Interstate Commerce Act.

injunction would lie under the Interstate Commerce Act.

The railroad companies in the local court affected by the order are:

The Michigan Central, Pittsburgh, Fort Wayne and Chicago, Pittsburgh, Cleveland, Chicago and St. Louis, Lake Shore and Michigan Southern, Illinois Central and Chicago and Northwestern.

Those in the jurisdiction of the Kanasas City court are the Chicago and Alton, Chicago, Milwaukee and St. Paul, Atchicon, Topeka and Santa Fé, Chicago, Burlington and Quincy, Missouri Pacific, Chicago, Rock Island and Pacific, Wabash and Chicago Great Western.

Insurance Policy Left by Lawyer Pennell in Trust for Mrs. Burdick is Not Collectable.

BUFFALO (N. Y.) April 24.—The efforts of the company which issued a policy for 15.000 on the life of Arthur R. Pennell to have J. F. Pennell interpleaded in Attorney Wallace Thayer's suit against the insurance company came to an abrupt ending in the special term of the Supreme Court. Charles B. Sears, attorney for the administrators, in open court withdrew all claim for the payment of the policy to the estate, and thus put an end to the motion.

April 24.-Until committee appointed to investigate charges of bribery in the interest of the Mueller Traction Bill made by Speaker Miller yesterday has reported and until George W. Hinman of Chicago has been summoned before the bar of the House to prove similar charges published in the Chicago Inter-Ocean, no action will be taken by the House upon any of the traction bills now pending. This action was determined upon by the anti-Miller forces today and they carried it through by the passage of the Hinman resolution. The opponents of the Miller faction are firm in the belief that no proof of bribery will be forthcoming.

At 10:20 Mr. Lindley asked unanimous consent of the House for the and until George W. Hinman of Chi-

tered upon an exhaustive discussion of traction legislation, past and present. While Lindley was talking on the traction question Representative Schlagenhauf made an attempt to force the bribery question before the House by calling a point of order on the length of Lindleys speech. Schlagenhauf, however, was induced by his friends to windrew his point of order and Lindley continued his speech.

Schlagenhauf then submitted a resolution calling for the investigation of the charges made by George Hinman of Chicago, and published in the Inter-Ocean.

The resolution which calls for Hinman's presence in the House not later

The resolution which calls for Himman's presence in the House not later than next Tuesday, was adopted unanimously, eight members being absent or not voting.

Representative Morris introduced at resolution ordering the appointment of a committee of five to investigate the charge of attempted bribery of the Speaker which was made yesterday by Speaker Miller. It was unanimously adopted and the Speaker named as members of the committee, Wheeler, Kopf, Morris, Johnson and Fairley all five personal friends and adherents of the Speaker.

The fact that Speaker Miller failed to appoint as a member of the committee of the committee of the anti-Miller people to wrath and Clarence S. Darrow of Gook, moved that the committee of five be increased to eleven, and that Representatives Rinacker, McKinley, Trautman, Bundy, Shirtliff and McManimon be made members. The motion was carried by a vote of 72 to 60.

Mr. Doubleday, of the publishing house of Doubleday & Page, has a small son whose regard for Rudyard Kipling son whose regard for Rudyard Kipling, when in America, is a frequent visitor at the Doubleday home, and the small boy's admiration quickly grew to devotion. He watched with the most fervent interest every step of progress in a book of Mr. Kipling's as it went through the publishing house, and he had a moment of real ecstasy when he held in his hand the first finished volume. One day he came to his father with an eager, questioning face.

"Papa," he asked, "don't you believe Mr. Kipling is going to write any more children's stories, something like the Jungle Books, you know?"

"Don't know, my son," answered Mr. Doubleday, "but I wish he would."

"Tve been thinking of something." said the boy slowly, "and I've been writing a letter about it to Mr. Kipling. I think he could make great stories out of 'Where the Camel Got His Hump' and about 'What the Elephant Puts in His Trunk,' don't you?"

"I just imagine he could," said the father, laughing.

"Do you mind if I send him the letter?"

"Not at all. Mr. Kipling will be delighted to hear from you."

"And now, papa, I want to make a business proposition. If Mr. Kipling should write some of these stories I have asked him to, and if you should publish them and they should sell like hot cakes, would you be willing to pay me one per cent. royalty for thinking up new plots?"
"I shall be most happy to, my boy,"
"And draw up a regular contract as you do with authors?"
"Most certainly."
"And advance me five cents now off my royalties to mail a letter to Mr. Kipling?"

absentmindedness and snortsightedness.

One of these revived anecdotes concerns the loss of Canon Spooner's hat. That article of apparel having been blown from his head by a gust of wind, he set off in pursuit of it, but was diverted from the chase by a broken-winged black hen which ran athwart his path, and which he supposed to be his hat flying in a different direction, and accordingly followed with such success as to corner and capture the fowl. Placing it un lowed with such success as to corner and capture the fowl. Placing it under his arm, so that it would not be blown from his head again, he resumed his walk and appeared in church with the unhappy victim well secured, to the great wonder of his congregation.

## L IQUOR LAWS AND REFORMS.

The saloon question has again come prominently to the front in Los Angeles and adjoining counties, in conection with efforts that have been put forward to secure the closing of the caloons in various towns. The ways have with us. There is scarcely any section of the United States where it is not brought forth and agitated from time to time. In New York, recently, a new law has gone into effec increasing the saloon tax 50 per cent, or from \$500 to \$1200 a year. Our Los Angeles saloon keepers think they are paying a high tax, but the New York tax is now twice as large as that coleted by the city of Los Angeles. It Greater New York at least 40 per cent. the first Raines law went into effect, in 1896, there were more than York, but the adoption of restrictive measures drove at least ately, as there are now 12,000 saloons Greater New York. Dist.-Atty. Jerome, who will scarcely be suspected of sympathizing with the undesirable element, is quoted as say-ing, in regard to this change:

"The license may raise a few mil-lion dollars more for the use of the State, but it will also raise a new class of criminals in New York which will keep the police busy."

Of course, the passage of this law has aroused much opposition among nor element, and has resulted in ration of war on Gov. Odell. A

"The Liquor Dealers' Association has already plans under way to start a subscription for a \$2,000,000 fund which is to be raised to destroy, politically, every person who in any way aided the passage of the high-license bill, which means, according to liquor dealers, the ruin of at least 20 per cent. of those who are at present engaged in the liquor business."

In this connection, it should be reered that a high license is not the only thing-or, indeed, the most ortant thing-to be considered, in man who wishes to run a disorderly use-to sell liquors to drunkards, and permit people to rob on his prem-ines—can better afford to pay \$100 a is a shameless history of violence. strictly obey the law and sell no drinks in unlawful hours can afford to pay \$50. Were chil-dren taught to write something worth while with either the north or the south paw there would be something to it. The world doesn't want more writing, but a better output.

A novel idea is about to be tried in New York, where, backed by a number of well-known men who saloons, the "Acorn No Treating Tayern," to be located on Upper Broadway, will shortly be opened op Potter and Dr. Rainsford-will saked to indorse the enterprise and be present at the opening.

There was not as much of this fun and frolic—not as much sparkle to the wine—as one might have been led to expect from the bringing together of so many ministers of somewhat different ways of thinking; nor was there as much of it as there would have been had the talks been extempore. The clergymen were on their mettle, how-ever, and didn't want some other fel-low to come there cocked and primed on the doctrines of his church and be dependent themselves upon an offhance

Robert J. Burdette could not be there, but he was represented by a characteristic pleasantry. He sent word to the chairman to ask Dr. George Thomas Dowling, rector of Christ Episcopal Church, to answer the question why he had jumped the Baptist fefice. Dr. Dowling's answer was:

All the speakers went considerably into the details of their several doctrines, and some enlarged upon the numerical strength and financial importance of the denominations they represented, so that in instances it was difficult to deduce a succinct answer to the question: "Why Am I—." Very Rev. Father P, Harnett, in representing the Catholic charch, reviewed the life, atonement and resurrection of Christ and the doctrine of theological infallibility as a prerogative of the Pope as the one rightful successor of St. Peter.

"On these facts was the Catholic church established," said Father Harnett, "and therefore I am a Catholic.

The crying need of the city is. The crying need of the city is not more policemen, but more light where people walk at night. Abandon the elevated arc lights that are now only of benefit to the streets proper, and substitute therefor smaller lamps at certain intervals along both sidewalks in a block. The system now in vogue is expensive and does not accomplish its purpose. The one herein suggested might cost as much or more, but it would lessen the frequency of these hold-ups which are terrorising pedestrians in all sections of the city.

The volume of advertising in The Times for the month of March, just past, eclipses all previous records. A grand total of 3314 columns of paid advertising was printed during the month, showing a gain of 578 columns over March, 1902. The average number of columns printed each day is nearly 108, or over fifteen full pages. Here demands were flatly refused by the firm and for one day the strike of a union men which followed somewhat handicapped that firm. After me, however, the firm secured a sufficient number of non-union men to do it work, and it was announced that tersafter no union men will be employed there. The failure of their strike caused considerable feeling among the minn harmess makers, and there were coust threats of violence, but no attention was paid to them. It was not mill last night that these threats were made good, and then they almost resided in the murder of the foreman. Winters left his work at the usual hear last evening and after dinner came downtown and about 9 o'clock stated to return home. He walked out light street and at the corner of Sixth and Figueroa streets he was accosted by Nolan, whom he had discharged for runkenness. Winters did not speak to Nolan, but the latter steeped in front chim and began cursing him, saying that he would never be able to discharge any more men. Without any provocation on the part of Winters, Nelan drew a knife and assaulted his former foreman, cutting him many times on the head, several of the wounds being from the halr, through the face to the point of the chim. There were no less than four such wounds. One ear was almost severed.

Winters defended himself as best he could and once succeeded in knocking down his assailant; but Nolan regained at for assaistance and several persons ame to his reacue and prevented Nolan hom continuing the assault. At the approach of other persons Nolah ran was his victim was taken home.

Natural Laxative Mineral Water. CONSTIPATION

Some of the Very Finest Specimens of the Piano Maker's Craft are on Free Exhibition Day and Night.

Those special art goods on exhibition in the Blanchard hall parlors and in the regular warerooms of the Bartlett Music Co. have created a great furore in musical circles. Not intended for immediate sale, but for exhibition purposes, they were prepared with great care and of the finest material.

material.

Now all is changed and on account of the delay in transit and the subsequent failure to secure the beautiful Blanchard hall for the beautiful Blanchard hall for the exhibition at this late date, the whole stock is thrown on the market. They must be sold. The real value cuts no figure. Pianos that should sell for \$600 are now going for about \$400 and \$400 pianos for less than \$300, and \$300 for a trifle over \$200. Not only is price cut to the cutch. 3300 for a trifle over \$200. Not only is price cut to the quick, but terms are made to suit anyone. — We shall not stand on the order of selling. Those choice San Domingo mahogany cases, the special quartersawed oak and French buri walnut cases are certainly beauties.

tainly beauties.

It is worth a visit to see so many and such beautiful instruments under one roof, and you will be amply repaid for any trouble and expense you may go to in coming to see them. The great sale is nearing the

end, and unless you attend to the matter soon it will really be too late to secure such bargains as are now going each day. Scores, yes hundreds of people have taken advantage of our great sale and why not you. Today will be the greatest day of all for the store will be open till 11 o'clock tonight. Plenty of salesmen to show goods; 15 rooms upstairs and down: hun-dreds of planes. Come and see.

Didn't Mind Black Flies.

A guide in the Maine woods was hragging the other day about his indifference to the attacks of the black flies, from which those in his party were suffering greatly. A \$10 bet was made that he couldn't let the flies settle for five minutes on his bare back. The guide stripped and the insects came in good numbers and began to hite. He did not wince. Then one of the party got behind him, took a burning glass out of his pocket, and the sun being out, focused it on the guide's shoulder. The guide squirmed and wr'ggled. He stood it for some seconds, then he blurted out:

"I can stand all the black flies in Maine, but brush away that durned bee."

He won the bet -[New York Sun.

MORE SENT TO JAIL SUSPECTED OF COMPLICITY.

(BY THE ASSOCIATED PRESS-P.M.) BAKERSFIELD, April 24.—The Cor-oner's inquest into the deaths of Of-ficers Packard and Tibbet, and Outline McKinney will open tomorrow morning at 10 o'clock. From the present outlook the inquiry is likely to continue several days, as there is a large num-ber of witnesses to be examined. The public interest is very great as to-morrow there will be for the first time official information given out as to what evidence there may be against Al Hulse and the others now confined in jail on the charge of complicity in the crime.

John Caldwell, who has been under arrest sever days on suspicion of having aided McKinney's entry into the city, has acknowledged that he knew

THEY INDICATE A DANGEROUS, CONDITION OF HEALTH.

Women so Afflicted are Usually the May Be Unsuspected

Fainting spells and a tendency to faint away upon slight excitement in-dicates a condition of health that should be attended to without delay. The great majority of those so af-flicted are women and the cause can micred are women and the cause can generally be traced to female weak-ness, often of long standing and fre-quently unsuspected. "My health had become all run down," says Miss Catherine J. Ball, of No. 375 Bates avenue, St. Paul, Minn., "and I had frequent fainting spells. I was pale and sallow and suffered regularly from a serrible backache and a soveness in and sallow and substance regulary from a servible backache and a soreness in my right side below the waist. I had no strength, the slightest exertion tireu me and made me short of breath. My stomach troubled me at times and My stomach troubled me at times and I never felt as a well person ought to feel. I doctored for three months but the physicians did not help me much and it was not until I took Dr. Williams' Pink Pills that I began to improve. In less than a week after beginning with these pills I could see a change for the better and in a short time I was well. My complexion became clear and healthy, the soreness disappeared, I am no longer troubled with faintness and I feel perfectlywe, and strong."

After her confession she again fainted and her condition became such that she required the services of a physician. She made rambling statements, some of them in French and others in German which could not be understood by the officers. She was led back to the woman's ward in the City Jail and it was necessary for the Police Surgeon to administer an opiate to induce sleep.

NATIVE SONS CONCLAVE.

Today Bakersfield took on a holiday appearance and is decorated throughout the business part of the city with hundreds of figgs, national and State, and great strings of electric lights are being strung everywhere as a preparation for the gathering of the Native Sons here. The assembling of the delegates will begin in earnest Sunday night, when there will be a grand open air concert at Chester avenue and Nineteenth street. Monday night there will be a public reception and an address by Mayor H. C. Fish, welcoming the delegates. The citizens have subscribed very liberally toward the reception. The City Trustees appropriated \$250, the County Supervisors \$200; Baker Parlor, N.S.G.W., \$500, and the Retail Liquor Dealers Association of Bakersfield today presented the committee with a check for \$1100 to assist in the defraying of expenses of the Grand Parlor next week. The Board of Trade gave \$1000, and the other contributions bring the amount up to \$5000.

\$5600.

The electric light company will place a handsome electric sign over the trolley across the street between the land company building and the Producers' Bank building. The sign will consist of 160 colored lights, forming the words, "Welcome, N. S. G. W."

There was another big crowd of the state of quick sport, for there were three inst double plays and a circus catch by Dayle in center field that was a wooder. The fielding generally was of a ligh order, for the only error that cut any figure was Smith's in the fatta arth and it was just as easy to call his mistake a hit by the batsman. There were many pretty plays throughout the game.

The visitors stung one run out in the first inning on Doyle's pass and two stesis and Townsend's drive to right. Then in the sixth the real slaughter of the game commenced, and when the field of carnage had added four more runs to their score and the Looloss had been hopelessly beaten, for Cutter was too tough a proposition to do anything with.

Egan led off the sixth with a bad double-bagger over third base that landed against the left-field fence, and afterneed to third on Townsend's pass to Hogan hit wright. Then Townsend moved on to seemed on Corbett's pass to Hogan and the bases were thus full. Casey bagged a high bouncer to Smith, which might be called a hit or an error. He misjudged it, ran up to get it and it bounded over his hands into the field. Eagan and Townsend secored as this and Hogan went to third, and this and Hogan went to third, and this and Hogan went to third, and the plate on Sheehan's sacrises that to first base. Casey ran to third at this and scored a moment later on Cutter's hit to right field.

The Looloos couldn't hurt Cutter a lit in the entire game, and their only nn came in the seventh inning. Ross soulded over first base, went to third at Toman's infield out and scored on Spies's hit to left field.

Scientific Treatment of Men's Ailments

A scientific, thorough cure in every case, nothing less. Such has been my reputation for sixteen years.

When I treat a patient there is no guesswork about it. Neither is there any question as to what the result will be. I began my professional career with the determination that if possible I would place the treatment of men's diseases on an absolutely scientific basis. This I have accomplished. I can cure you and I will tell you plainly your condition when I know the details of your case.

Weakness.

I was the first to discover the fact that I was the first to discover the fact that "Weakness" is merely a symptom resultant from a chronically infiamed prostate gland, and that to remove this infiammention is the only method of permanently restoring lost vigor. To this day my system of local treatment is the only successful one in use. In years I have not failed to effect a complete cure, which is a statement that cannot truthfully apply to any other treatment being employed in these cases. Of course there is an occasional case that has passed into the incurable stage, and these I do not treat at all. My long experience enables me to recognize them and to select only such cases as I can cure permanently.

I Am Always Willing to Wait For My Fee Until a Cure is Effected.

VARICOCELE.

Varioccele interferes with local circula-tion and the process of wasts and repair throughout the process of wasts and repair throughout the process of the process of the process of power, and may even result in a wast-ing away of the organs themselves. I cure varioccele in one week My method is absolutely psinless, no surgical opera-tion is involved and there need be no detention from business.

I do no cutting or dilating. No other physician employs my method of overcom-ing this disorder, so the service I offer you is original and distinctive. Do not give up hope because others have failed. I will cure you and the cure will be a prompt and painless one.

MINES AND MINING. Wonders of Liewellyn IRON PLANT SHOWN.

COMPANY GIVES AN "AT HOME" AT ENLARGED FOUNDRY.

Many New Labor Savers Added to Establishment-Scheelite Ore Found at Randsburg-Bonnie Brae Strikes Rich Streak-Miners' Row Still On.

Llewellyn Bros. gave an "at home yesterday at their recently enlarged establishment in the manufacturing district, which proved an interesting

One of the labor savers recently installed, and which attracted considerable attention yesterday, is a friction saw that has a capacity for eating into anything from a brass tack to a twenty-four-inch steel beam. While in operation yesterday, the saw, which is run by a twenty-four-horse-power electric motor and swings at the rate of 126 revolutions a minute, cut through a twenty-four-inch beam in a minute and a quarter. An idea of the time and labor saved by this bit of machinery alone may be gathered from the fact that under the old method it would take two men nearly a day to do the work by hand.

Machines that cut half-inch holes in strips of steel three-quarters of an inch in thickness, and do it as though the steel were so much cheese, were seen in operation, as were other labor savers that represent advancement in manufacturing, machinery.

Among devices recently installed is a traveling crane that can pick up ten tons of material and carry it from one building to another.

In the manufacturing of mining machinery the company has made remarkable progress, and stands ready to supply almost anything in that line. It recently shipped two sets of rolls for a mill on the Gold Roads property in Arizona, four sets for the Shannon Copper Company at Clifton, Ariz, and completed the furnace top for the largest copper-matting furnace in the world, that of Phelps, Dodge & Co.

The trip yesterday proved a revelation to many who inspected the establishment, and the company was complimented at every hand for its enterprise.

JACKSON, April 24.—The superintendents of all the mines included in the strike held a meeting today, when the compact to stand solid on the terms offered heretofore as the basis of settlement was completed by the addition of the Gwin mine, through Superintendent McClure, to the written agreement. Mr. McClure says he understood the temporary agreement with the union to mean nine hours or actual work. Today has passed without a new development of interest. The Kennedy old mill came to a standstill, having crushed all the cannot be had to run it to the mills. Not a stamp is dropping in the district.

Should the strike be settled at once, it would be a month before the miners could start work at the Kennedy, owing to the flooding of the lowg levels. The Jackson union is holding a guesting tonight to consider the situation.

Correct Methods Bring Correct Results.

The secret of our success is that we are educated Physicians, knowing just how to treat disease in all its forms. The proof of this statement is in the cures

we are making.

In our talk to men through the medium of an advertisement, we have no special phrase, or alluring catch words, that are so often recorred to by so-called specialists, who are not even physicians. Our talk is straight and to the point. We represent ourselves, truthfully, in every regard. Our aim is to let people know that we are educated specialists, treating and curing diseases of men. Our ability to treat scientifically, our facilities, coupled with our experience of over 20 years have brought in their train perfected methods that invariably bring to men who treat with us, permanent cures. Physicians of education and experience, are not looking for temporary relief or partial cures. They bring about normal conditions and lasting cures by correct methods. It is a fact that all special diseases of men, are of their nature serious, and pre-cminently need the attention of a skilled physician gho is a thoroughly qualified specialist. As to our qualifications, men, who know us know they are unquestioned. To alling men who are strangers, we specially extend an invitation to call and interview us. Consultation always free.

IMPORTANT SUIT BEGUN IN SAN BERNARDINO COURT.

All Fifth and Sixth-class Towns in the State Affected-Action to Set Aside Deed Because Tough Houses Are

SAN BERNARDINO, April 24.—One of the most important suits ever filed in this county, affecting every town in California of the fifth and sixth classes, was begun here today by the Retail Grocery' associations of, San Bernardino, Redlands, Colton, Ontario and other towns in this county, to test the county in the county, to test the ther towns in this county, to test the onstitutionality of the law under hich-cities in the classes named energe a license tax upon merchants doug business in such towns. The plainfile in the suit are backed financially y similar organizations in Orange and liverside counties. Under the Municipal Incorporation Bill, passed in 1883, cities of the fifth

sill, passed in 1883, cities of the fitta and sixth classes were empowered to impose a license tax for regulation and revenue. The Legislature of 1901 passed general law limiting the power of boards of supervisors and boards of boy has been living with his aund boy. The clubhouse will be opened frustees of all cities to the imposition of a license tax for regulation only. On the same day the latter law was passed, but subsequent to its passage, that portions of the incorporation bill which ampowered boards of trustees of cities of the fifth class to impose taxes for regulation and revenue, was reënacted by amendment, thus apparently authorizing cities of a single class to impose a tax for revenue, while other cities were prohibited from so doing.

The same action was taken at the last Legislature for cities of the sixth class.

The grocers' associations contend in their suit that the act is special legislation, and to test the point have suffered one of their members to be arrested for son-payment of the tax. #### VENTURA COUNTY.

VENTURA. April 24—Marion Cannon, the bean raiser, today said he wapted to refute some stories that had been spread about regarding the probable bean acreage. One buyer had stated that there would be 70,000 acres stated that there would be 70,000 acres planted to beans the coming season. "These figures," said Cannon, "so far as they apply to Ventura county, are off the mark. The man who gives out the figures, a buyer for Armsby, says that there will probably be 10,000 acres in the Santa Monica section in Los Angeles county, another 10,000 acres in the Carpinteria section in Santa Barbara county, and the balance in Ventura county. Now I do not know what the sections outside of Ventura will plant, but I have some little idea as to the acreage in this county. Last year the acreage in this county. Was somethe acreage in this county was some-thing over 30,000 acres. I do not be-lieve it will be many more this year and it may be less than last year, for the beet acreage will be greater. The farmers in my immediate neighborfarmers in my immediate neighborhood, several of them, have, since the last heavy rains, determined to put in more beets than they first counted on, and this is done at the sacrifice of bean land. There is over 100 acres in my vicinity going into beets that normally goes to beans. I do not know how much there is in other sections, but I imagine there is considerable on the Oxnard side of the river."

Mr. Cannon says the sentiment for a bean growers association is growing, and that P. S. Carr and J. G. Hill are agitating the subject in their section. "The bean growers see the advantages derived by the Wainut Growers' Association from a combination," said Mr. Cannon, "and are anxious to throw some such protection about the lima bean."

Mrs. Clara Fischer Almost Killed, Then Burned.

Gasoline Poured on Unconscious Form and Ignited.

Testimony Strong Against the Widower, Who is Jailed. Hideous Case.

[BY DIRECT WIRE TO THE TIMES.] RIVERSIDE, April 24.-[Exclusive Dispatch.] Yesterday morning Mrs. Clara Fischer, wife of F. C. Fischer, a barber, was burned to death in the rooms occupied by the couple since last December, in the Stewart Block, on Eighth street, presumably as the result of an accidental evolution of a result of an accidental explosion of a can of gasoline. Tonight F. C. Fischer the widower, is locked up in the Coun-ty Jail, practically charged with the murder of his wife, a handsome, at-tractive and bright woman of 25.

The testimony brought out at the Coroner's inquest today leads to the be

oke was seen issuing from the front room of the suite about 10 o'clock An alarm was turned in, and the fire soon extinguished, disclosing the charred and almost unrecognizable re-ROASTED TO DEATH.

The supposition was that Mrs. Fischer, while cleaning a dress with gaso line, was the victim of an explosion, but the only reasonable conclusion to be drawn from the testimony brought out at today's inquest is that she was strangled and choked into insensibility, laid on her back on the floor, several gallons of gasoline poured over her, a match applied to the prostrate form, the door locked, and a few minutes' later the cry of fire heard.

Coroner Dickson, who conducted the inquest, and Drs. O. C. Darling and J. F. Brown, all testified, as the result of an autopsy, that the woman's right arm was broken just above the wrist, and that there were indications of the throat having been crushed by external force, two bones being broken. There were bruised spots on either side of the thorax.

There was evidence that the woman. line, was the victim of an explo

the thorax.

There was evidence that the woman lay on her back all the time the fire was in progress, her light shirtwaist and underclothing not being even scorched under the back. The jury rendered a verdict to the effect that the deceased had come to her death by being strangled and left unconscious, and her clothing set afire. One juryman hung out against charging the husband directly with the crime, and the other five let it go at that,

INSURED DAY BEFORE.

INSURED DAY BEFORE. Fischer was placed under arrest after giving his testimony, and before the testimony of the doctors had been heard. All he said was: "If my wife was murdered, I did it." He maniheard. All he said was: "If my wife was murdered, I did it." He manifested no surprise over his arrest. The couple are said to have suarreled recently. The day before the tragedy occurred Mrs. Fischer was initiated into the Lady Maccabees, her life thereby being insured for \$2000, which is spoken of as a possible motive for the alleged crime. Fischer admits walking to the room with his wife about fifteen minutes before the fire was noticed. He says he left her preparing to make some kind of a mixture with gasoline.

The things that count against Fischer are: His wife's broken arm and bruised and broken throat, the fact that out of a five-gallon can of gasoline purchased a week ago, only one gallon remained in the can. There was no explosion, and gasoline was not used for fuel, a gas stove being in the room.

used for fuel, a gas stove being in the room.

On the stand today, Fischer testified that he went to the room with his wife from Boyer's store, where they went to get materials for dyeing ribbons; that they used paint in chloroform and a gallon of gasoline to form the mixture. He was only a few minutes in the room, and warned his wife when he left to be careful about the gasoline. He said it was only about three minutes after he left'the room without locking the door that he heard someone cry "fire" and ran back.

"THERE SHE IS."

Other witnesses, including the physi-

meard someone cry "fire" and ran back.

"THERE SHE IS."

Other witnesses, including the physicians and firemen, testified that the fire must have been in progress ten minutes or more before being discovered. D. C. Rice of Cleveland, O., a veteran fireman, and who was first to reach the room, testified that he tried the doors, but found them locked, and then kicked in the window. The smoke and flames burst out into his face and overcame him and he was obliged to go downstairs to get air. At the bottom of the stairs he met the husband and turned and went back with him. The flames were being sucked into the room from the hole in the window. The husband was the first to discover the body, and pointing through the window to the mass on the floor, he cried: "There she is."

Mr. Rice said he could hardly have distinguished it as a body, as he looked over the husband's shoulder. Carson Wilbur testified that he could not see the body when Fischer exclaimed "There she is." pointing to the exact spot where the inanimate mass lay on the floor. The Coroner's jury that was quick in reaching a verdict consisted of Frank McKern. Ben Ables, A. L. Schoepf, G. J. Vollmar, J. L. Campbell and James Havey.

Fischer has been regarded as an erratic individual. Whenever able to get a few persons to listen to him he would harangue them. His manners and drees are eccentric. Last night in the City Hospital he would fall asleep and, suddenly waken with a yell.

It is rumored, on apparently good authority, that the Southern Pacific will soon build here a large summer hotel and establish an automobile stage line from Pago Robles, entertaining the surplus of guests seeking quarters at the springs hotel in the latter place, which hostelry is managed by the same company. It is known that agents of the railroad have asked options on property here, but have acquired none as yet. The fine beach here has long been a favorite resort for Paso Robles citizens, and the proposed improvements will but add to that popularity.

ALLEGED IOWA EMBEZZLER.
COVINA, April 24.—Sheriff White came from Los Angeles last evening in quest of J. D. DeForest, wanted at Hawarden, Iowa, for the alleged embezsiement of \$3000. DeForest was arrested this morning as he was boarding the Los Angeles train. DeForest had been in Covina a few weeks, staying with his father-in-law, L. C. Lindsay. When arrested he expressed no surprise, but stated that matters could be adjusted when he arrived East. For the past fifteen years the accused man has been engaged in the cattle business in Iowa. His father-in-law stated that DeForest expected his wife to join him here in a few days. Recent developments will prevent this pleasant family reunion.

At tonight's meeting of the City Trustees. Trustee Vawter said the company had placed a switch on the third-rail line and that under its franchise the positions of switches should be designated by the City Trustees. He expressed an opinion that if a third-rail track were to be operated there a franchise for it ought to be advertised for sale.

On Mr. Vawter's motion the City Attorney was instructed to draw up and present to the board resolutions designed to prevent the company from laying tracks or operating the line contrary to the terms of its franchise.

SUSPICIOUS BOOZE TRIAL.

Much comment has arisen over the result of the trial of Oliver M. Brown, secretary of "Stingaree Fred's" notorious booze shop in Happy Valley, known as the "Pastime Association, which closed with a "hung jury." The fact that the officers, who recently made a raid on the "Pastime Club" falled to secure anything more than five bottles of brown colored water and one keg of beer, has created adoubt in the minds of many as to the absolute secrecy of the raid, and from a very substitutial source it is learned that a message of warning was transmitted to Happy Valley from the business center over the telephone just a short while prior to the raid. Rev. B. F. Cherington, paster of the Centennial Methodist Episcopal hurch, will read a paper on "The ise and Fall of Madame Blavatsky's heosophy in India," next Monday orning at 16:30, before the Union inisters' Association at the Y.M.C.A. ys' Brotherhogd Concert.

A fair-sized and very appreciative audience listened to the musical programme rendered by the Boys' Brotherhood of Memorial Baptist Church at Blanchard Hall last night, under direction of Superintendent William Gard. Everyone of the eleven numbers on the programme received hearty applause, and some were greeted enthusiastically. The funds derived from the concert are for the Boys' Brotherhood.

"Old members, new members, and non-members" gathered last night at the Y.W.C.A. rooms to enjoy a "progressive conversation party," and afterward to view the millinery opening, which was really the work of the three spring classes in that branch of study. There was a large number present, and the evening was marked by the delightful informality that always characterizes the association good times.

L. Connelly, aged 18, went into a Japanese restaurant at No. 249 South Main street and secured all he could of a 15-cent meal, and then taking his check ran out of the place and tried to escape. He was followed by one of the attachés of the place, who summoned a policeman and had him arrested. The boy did not have a cent on his person. All of any value which he had was a cheap watch, worth several times the price of the meal.

Chautauqua Board Meets.

Yesterday afternoon the Chautauqua board met at the Y.M.C.A. to plan for the eighteenth annual session of the Long Beach Chautauqua. The talent submitted this season is superior and the programme will include many educational and entertaining novelties. Many improvements are to be made on the grounds, and the installation of electric-car service will accommodate those who wish to attend night meetings. It is planned to make this the banner year of the Chautauqua, Association.

Attorney E. T. Dunning of the Los Angeles Board of Trade returned yesterday from Arizano, where he represented Los Angeles and San Francisco creditors in the bankruptcy case of the Copper Belle Mining Company. The candidate of the local creditors, A. H. Emanuel, was appointed trustee. The opposition led by Judge Barnes, favored Mr. Bullock, who represented thirty-six claims, but eighteen of these claims were thrown out, the remainder amounting to 39000. The local creditors won all the contested points in the case, the court sustaining them in every particular. The order of the court is printed in The Times advertising columns today. Landed on His Teeth.

Edwin Cummings, the younger son of Chief Clerk Cummings of the Angelus Hotal, lies seriously injured at his father's home. No. 227 South Olive street, as the result of a peculiar bicycle accident. The boy was coasting down an incline back of the house, leading to the front yard, when his brake gave way, the wheel speeding over the lawn and leaping down the five-foot retaining wall to the payement below. The unfortunate rider langled full on his face, lacerating his lips and shattering most of his teeth, beside fracturing both arms. So hard was the fall that the indentation of his front teeth was left in the asphalt, as were some of the teeth themselves. He was picked up unconscious, and for He was picked up unconscious, and for a time it was thought that he might apt pull through, though his recovery ir looked for now. Qaly Half Shot.

Oaly Half Shot.

Maj. Henry 'Augarde, a well-known on-hestra member and for many years a member of the British army, applied at the Police Station last night for treatment for what he thought was a gunshot wound through the left foot. He had a revolver in his pocket and while brushing his clothes the brush struck the hammer of the gun and it was discharged, the bullet tearing out his pocket and striking him in the ankle. He thought he was seriously wounded and when he was taken into the Receiving Hospital he could hardly walk. An examination of his foot walk. An examination of his foot showed that the bullet had passed through his shoe and had just grazed his foot, tearing off a plece of skin about the size of the end of a lead pencil. There was no other injury and the major, grateful that his wound was no worse, left the hospital declaring that he must have been only half shot.

union, formed Thursday night, has already begun. There was an imprompting meeting of about tighty of the members of the new organization about 5 o'clock last night for the purpose of discussing ways and means. It appears that Biddie, Gray and other union agitators had told the ignorant hiexicans that once they formed a union they would be in position to dictate terms to the atreet-railway company and for that reason alone many of them entered the union. It was something new to them and like a lot of sheep they followed their self-constituted leaders, and at their demand struck for higher wages. It had not occurred to them that their demand would be refused and after having been out of work nearly half a day they could not understand how it happened that they had not immediately received the increased wages. All that they saw before them was the feet that they were out of work and did not know where the next job was coming from. Many of them are men of family, who have ben living in care

Those Scotchmen who oppose King Edward's style and title as applied to Scotland object solely to the VII. They say that it implies that the king is the seventh Edward who has ruled over Great Britain and that therein it is a misnomer, since he is the first of that name who has filled the throne since the United Kingdom became a political fact. Scotland never had a King Edward while it was an independent king dom, and if these critical Scots can get her ear will not now by any weak implication admit that Edward II, whom Bruce defeated at Bannockburn was sovereign of Scotland. The point that these critics are seeking to make is that while the present King is unquestionably the seventh Edward who has reigned in England and VIII of Scotland. The point that these critics are seeking to make is that while the present King is unquestionably the seventh Edward who has reigned in England, he is the first Edward who has

accomplished, carrying with it a change of style and title.

No question was raised under the Georges for there had never been a Scotch George, and if anybody challenged William IV's designation the challenge has been forgotten. Vicetoria as a name was not to be challenged by the most pragnatical Scot. Probably those Scots who are now questioning King Edward. VII are a few antiquarians who are in seach of advertising. We should think that to most Scotch men and women, the reflection that King Edward owes his theme to his Stuart blood would be sufficient balm for any abrasion of the national susceptibilities his VIII may cause.—[Boston Transcript. #### AT THE CITY HALL, BLANKET PROMOTERS WIN ANOTHER POINT.

ACTION ON SCHELLER PRANCHISE AGAIN POSTPONED.

Brand Franchise to Glendale, and Ninth and Park View Franchise, Desired by ington, Meet With Favor of Board

At the last moment the Board of Public Works concluded to delay action on the Scheller franchise through the First Ward for two weeks, and consequently there were no franchise arguments before the committee yesterday. The change of programme was due to the stand taken by McAleer in favor of letting the Clark-Harriman combination and the Huntington-Hellman syndicate fight for the franchise at a time when the former were prepared to present their revised blanket application. From statements made yesterday it appears that this will not be for two weeks.

yesterday it appears that this will not be for two weeks.

McAleer stated to his colleagues that the residents of Monte Vista street were opposed to a franchise on that street and that action should be postponed to enable the Scheller application to be revised. The real reason for the delay went much nearer to the merits of the franchise controversy, however, and the action of the board yesterday is regarded as a point in favor of the blanket-franchise promoters.

But the Huntington syndicate was not without a balm to ease their failure to secure the advertisement of the Scheller franchise yesterday. The application of L. C. Brand, which is regarded as a Huntington move, was famently, baseed unon and the heart with

ire to secure the advertisement of the Scholier franchise yesterday. The application of L. C. Brand, which is regulated as a Huntington move, was favorally passed upon and the board will recommend its advertisement. The Brand application in the city is for a franchise that will connect with a road to Glendale and Tropico. It will extend as far south as Sixth street, the syldent intention being to run the carse eventually to the Huntington suburban depot at Sixth and Main streets. If the road is of broad gauge this will mean a third rail on portions of Sixth street.

The board out from the route that portion running on Third street between Figueroa and Flower streets, leaving the application substantially as follows: Commencing at the north city boundary about 500 fet west of Alvarado street; thence southerly over private right of way and unnamed streets and across Baxter street to Effe street; along Effe to Alvarado street; along Figueroa to Sixth street.

In a slightly amended form the application of the Los Angeles, Railway Company for a franchise on Ninth, Park View, Hoover and other streets as a slightly amended form the application of the Los Angeles Traction Company for a franchise went with the application. No representative of the Franchise went with the application. No representative of the Traction Company appeared to oppose this action by the

beard.

The board decided to recommend the coening of Twelfth street from Figueros to Georgia street as asked by H. W. O'Melveny.

The Street Superintendent will be instructed to pump out the deep hole of staranat water at Orange and Wiscomer streets on the property of T. T. Bradshaw.

A petition for the widening of Leftermon street from San Pedro to Central avenue to a uniform width of seventy feet was granted.

REGULATING THE SUMPS. A storm of protest burst upon the committee on Legislation of the Coun-

very detrimental to the \$\mathbb{S}\$! producers.

Oil Inspector Blackmar stated why the ordinance had been drawn and declared that its most stringent provisions would not be enforced except against those who made no attempt to obey the law.

Chairman Skilling of the committee took exception to this view, and declared that the ordinance would of necessity be enforced with impartiality against all the operators. He believed that the ordinance would, be of benefit to the oil men as well as to the public.

Walter Young wanted the ordinance changed so that refuse oil could be turned into the sewers, but Councilman McAleer gave it as his expert opinion that such a course was not feasible.

Ad Petsch spoke on behalf of the property owners in the southern section of the city, who suffer every time there is a heavy rainstorin. He said they were entitled to some protection and that the ordinance should be passed. C. D. Willard of the Municipal Lesgue appeared, but made no

pai League appeared, but made no public speech.
Only one of the thirty or more oil producers got angry. He said he wished the ordinance amended so as to keep the oil men out of town. He declared, sarcastically, that the only reason they were in the business was to run oil out Figueroa street so that the "long hairs" might have something to "kick" about.

about.
At the end of the long arguments the oil men pleaded for one week's delay in order that they might submit amendments to the measure. This the committee refused to grant and by unanimous vote the passage of the ordinance was recommended. The oil men propose to fight the ordinance in the courts.

hetween two men, and that Willoughby Rodman of the law firm of Rodman & Garrett is one of the men under con-sideration by the Mayor.

#### FIESTA PLANS.

COUNCIL TAKES A HAND. When the Fiesta Committee fixed the route of the floral and electrical parades in such a manner as to leave out the block on Spring street between Fifth and Sixth street they added an-

edge of the circle are the words, "The Board of Directors of the Los Angeles Public Library." The board accepted the offer of E. W. Hewitt to furnish a building in Garvanza for a branch library for 325 a month under a ten years' lease. The building is of stone, 38x48 feet in size, and is located on Mountain avenue near the Pasadena car line. The branch library will be ready to open about June 1.

EXCAVATION ORDINANCE AGAIN. Individual members of the Councilhave asked Mayor Snyder to return without his approval the excavation ordinance which was passed last Monday by a unanimous vote. It serted by them that a fatal err crept into the ordinance, but this error is admitted to be a provision which

the lighting companies deem to be oppressive.

If the Council carries out the intention of some of the members the
excavation ordinance will be recalled
on Monday and sent back to the Committee on Legislation for another slege
of revision. Mayor Snyder declared
last night that he had not yet looked
over the measure, but that it is his
rule to allow the Council to fashion
legislation to its own satisfaction before he passes judgment upon it.

Street Superintendent Werdin stated
yesterday that he will not abandon the
fight, but will endeavor to have the
ordinance again approved just as it
stands.

committee refused to grant and by dinance was recommended. The oil men propose to fight the ordinance in the courts.

MUST NOT LOITER.

By a similar vote the committee approved the ordinance drawn at the restriction of the courts.

Government of the control of the similar of the courts of Commerce providing against lottering on the streets or sidewalks of the city and against the obstruction of the similar of the similar of the courts of the court of the similar of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds on the street in front of the hotels and other build-keep the crowds of the "I will be there when the band plays," he said, "and I think I can show the members of the Council that my statements are entirely correct. city treasury at the rate it is now extending its mains.

Under the ordinance the Street Superintendent is empowered to exact a deposit of 30 cents a square foot for all pavement torn up and a lesser amount for other street surfacing. This, money can be kept by the Street Superintendent for a year if he so desires, and if defects appear in the work it can be repaired from the deposit. This provision, the companies hold, is sufficient to protect the city. It is alleged that the activity of the Street Superintendent is due to a desire to pay political debts by creating a fund out of which a small horde of inspectors can be paid.

Certain it is that the debate on the ordinance will be heated when next it appears before the Council if that sody decides to recall it from the Mayor.

In the block on Spring street between Fifth and Sixth street they added another chapter to the municipal controversy between the Board of Education and the Council on the one hand and the Merchants' and Manufacturers' Association on the other.

Now the Councilmen say the Fiesta Committee can't have that \$2500 appropriation unless the routes are changed.

First the Merchants' Association, which is backing the Fiesta celebration, wanted to erect reviewing stands on the Spring-street school lot without paying the Board of Education for the privilege; then the board rented the stand privilege to Sharp & McGarry for the stand privilege; then the board, which has backet basket. In the meantime the Council had returned unread a communication to the board, which has been standed to appropriate \$2500 for the celebration.

Nevertheless the Council listened to the request of the Flesta Committee, backed by Mayor Snyder, and agreed to appropriate \$2500 for the celebration.

The demand was to have been stamped and issued yesterday. When the route of the parade was published and it was noted that the Spring-street site was cut out, the Council men conferred and withdrew the demand from the Audit of the Council and the Mayor had not signed the paper.

Apparently it is the Flesta Committee's next move. delegation of oil producers appeared and stated their objections to the proposed measure regulating the production and storage of oil in the local field. In person and by attorneys the producers attempted to secure the adoption of amendments to the ordinance, but their dforts were unsuccessful adoption of amendments to the ordinance, but their dforts were unsuccessful adoption of amendments to the ordinance, but their dforts were unsuccessful adoption of amendments to the ordinance, which was exhausting the meaning the unsuccessful and privilege to Sharp & McGarry for the council on Monday.

The ordinance, which was exhaustively reviewed in these columns some days ago, contains stringent regulations regarding the manner in which refuse oil is handled by the producers. It was drafted in the hope that the frequent deluxes of oil to which the southwests and the storm water cannot cause them to overflow.

LUDICROUS DEFENSE BY ITALIAN SALOON KEEPER.

Jury-His Sweetheart Has Flown With

How strange itwas that the detectives raided John Ghio's place on the very day he was having a party—a baby's birthday party, if you please, with only men for guests.

Ghio runs a saloon in the foreign quarter at the corner of San Fernando and Ord streets, and attention had ben attracted by the number of Sunday visitors to the place and so the other Sunday the detectives squared themselves to clean the place up. They Sunday visitors to the place and so the other Sunday the detectives squared themselves to clean the place up. They bought and drank beer in the room between Ghio's kitchen and the saloon, and finally raided the establishment after they had seen upwards of twenty-five persons enter the place, each being admitted by a woman who stood on guard, and unfastened the door as each went in and refastened it behind him. The betites and glasses and a beer keg were taken to the Police Station along with Chio and a great array of witnesses.

The surprise sprung by the defense was ludicrous. Through an interpreter all of the witnesses except the detectives, swore that Ghio had a birthday party for his baby that day, and they were all invited guests. They didn't know each other's names, and one named Mike didn't get there until nearly three hours after the first to arrive; another testified that they sat at the table for six hours. The dinner party hadn't arrived when Detective Marcum went in and bought a bottle of beer.

The jury, much to the suprise of the

court officials, deliberated over the case for two hours and then reported that they could not agree. The case will be reset for a second trial today.

#### Mills Will Stay.

John P. Mills who ran away from Chicago with the wife of Charles H. Lamson, and enjoyed the bilss of her company for two weeks in this city, was called into court yesterday and informed that the adultery charge had been withdrawn and he was free to depart. He was no doubt glad to get into the open air once more, but the sunshine of California is next in his affections to the smile of Mrs. Lamson, and he proposes to bask in its fentle glow until the storm created by his dastardly conduct has in a manner blown over.

blown over.

Twenty-four hours before Mills was released, Mrs. Lamson had started East with her husband. There's no telling; it may be that Mills will yet be startled by the appearance of his wife on the scene, and she, too, may take her lovey back to Chicago on a Pullman train.

Representatives of the Los Angeles Board of Trade have prepared a statement setting forth their side of the case as found in the report of Referee Lynn Helm in the Wigmore bankruptcy matter. They claim that in some points Receiver Gregory Perkins, Jr., got the best of it. They say:
"Dunning & Craig, attorneys for the Wholesalers' Board of Trade, petitioned for the removal of the receiver, making a number of charges against the receiver as the grounds for his removal. Of these charges, some referred simply to matters of judgment, while others were intended to reflect upon the integrity of the receiver. lish the grade.

Hollywood Terrace is beautifully located on he gentle slope of the foothills at the corner of rospect and Western avenues directly on the nain line of the Los Angeles Pacific Electric R. R. Co whose cars run past the tract every 15 min-

Hollywood Terrace is only 25 minutes by olley from Los. Angeles now and when the cars in operation on cut off via Sunset Boulevard time will be considerably reduced.

Every lot commands a beautiful view of the ountains and valley and at night the lights of Los Angeles on one side and the beach resorts slong the ocean on the other make a picture no rtist can paint. Cool ocean breezes in the day time d balmy mountain air at night make Hollywood Terrace an ideal place to live.

Hollywood Terrace lies wholly within the frostless belt, and all kinds of tropical fruits and plants and flowers can be grown there in a rich loam absolutely free from hardpan and alkali.

An abundant supply of pure mountain water piped to every lot from the 30-inch main of the West Los Angeles Water Co., running along Franklin avenue, which forms the northern boundary of the tract.

All corner lots are 100 feet wide, and the others 70 feet wide. Lots on Western avenue are 170 feet deep, and those on Garfield place 190 feet deep, Building restriction on Western avenue \$3,000, and on Garfield place \$2500.

The beautiful granite gateway, now being erected at the entrance to Garfield place will be the most artistic piece of workmanship of this class in the county.

All streets are being graded, curbed and side-

Decomposed granite is used for surfacing the streets and the cement work is of the best.

Palm and pepper trees will be planted along all the streets and all buildings on Western avenue must be placed 40 feet and those on Garfield Place 50 feet from the lot line, thus insuring an unobstructed view and giving plenty of space for lawn and garden.

Notwithstanding the fact that the owners are going to great expense to improve and beautify this Tract we are able to offer the lots for sale on very favorable terms and at prices which make them an absolutely safe investment.

There are only 51 lots in this tract and they are certain to sell quickly, so come early and make your choice of a beautiful home site. Also the owners reserve the right to advance prices without notice which is another reason why you "had

Come and see this beautiful property today, even if you are not ready to buy just yet. Our agents are always on hand at the Tract and will be pleased to show you over the ground.

We especially invite those who are contemplating building a suburban home in the near future, and we feel that when you have thoroughly investigated prices and improvements you will want to become the proud possessor of a lot in Hollywood Terrace.

Take the Hollywood cars and get off at Western avenue and we will do the rest.

Board of Aid for Colleges and Academies.

This schedule, although partial, comprises the standing orders of the assembly, and represents the most important part of the work. These features and their arrangement have been anxiously awaited by cleray and sension in many cities, and in none more than Los Angeles, the arena in Litch the great Calvanistic champions are about to enter their latest contest.

Other business, however, will fill up the intervals of time between the standing orders. This is of a miscellaneous character, portions of it arising from previous assemblies, as the matter of revision, others from overtures or petitions from the synods of the church, and others still from appeals sent up from the lower courts, it is impossible to prepare a programme for this work beforwand, as the interests of the church are vast and varied.

For one thing, it is not likely that the tortuous revision question will stir up any discussion, as nothing remains except to count the votes of the presbyteries on the overtures sent down to them by the last assembly, it is not supposed that any other very complicated questions will arise this year to stir up strife or long debate.

plies of the body are absorbed into the blood through the glands along the digestive tract. We do not require to be told how important it is that these glands should be kept pure and clean and sweet and healthy. We do not need to be told that if this is not done, the blood becomes so impoverished that it not only fails to supply the various organs of the body with the nourishment necessary to keep them strong and healthy, nor that it deposits the potson it receives from decaying food in the various organs, and instead of their receiving strength from the blood, they receive disease.

The nervous system is usually the first to show the evil influences of such a condition. It causes unsound sleep, and rest that is not refreshing. We get up in the morning feeling tired, langued, and our temper is uncertain. We loss that natural cheerfulness so much appreciated by our friends when we meet them. double duty to perform by reason of the extra amount of impurities which they must filter out of the blood, and like the other organs they too are damaged and impaired for want of proper nourishment. Impurities which should be filtered out of the system by the action of the kidneys are retained in the blood, redoubling the amount of poison it receives from poor digestion, thus increasing the poisonous deposits made by the blood in the tissues of the various organs in the course of its circulation, back and forth through the body.

While it might, however, be received as a tolerably clear expression of the modern idea of the indissolubility of matter and energy. Mr. Larkin's own endeavor to put this idea into words is scarcely as happy. His "Ener\_in the result of a particular state or condition in which matter may be when any observed phase of energy appears," is incoherent and confusing, if not strictly incorrect; for it makes essentially secondary and resultant, in appearance at least, that which is primary and causative as well, and the primary and causative as well, and the primary and causative character of which is the one especially to be emphasized in definition; as Frot. Barker emphasizes it in the definition Mr. Larkin quotes.

The book is dedicated to J. D. Hooker of this city, to whose generosity its publication is due; for it is an unfortunate fact that valuable scienting publications are seldom financially remunerative, as are books of fiction.

## EVERYTHING ON WHEELS.

Ancient Cars Rolled Out for the Fiesta Crowds.

Railway Companies Will Use All Their Oul-of-Dates.

Great Activity in the Boneyards of the Surface Road Corporations.

"Everything on wheels must go" is the motto of all the street-railway companies for the coming Fiesta. This year the transportation people expect to haul crowds that will be record-breaking, and what is more, to have more than one day's haul. The elec-

Friday, May 8.

The Traction Company will be hit hardest by the crowds, for they have not, at any time, many spare cars to run. Those that they have for "extran" are merely smail, open antiques, the relics of their original "Main-line" system to University. On race, circus and Flesta decasions these same are drawn faota-their temporary tombs, olled and dusted into a similitude of life, and trundled right metrily along, just as if they were of the latest pattern.

just as if they were of the latest pattern.

Lack of power may embarrass the Traction Company temporarily, although they say that now they are in good shape to meet all demands. Their recent accident, inwever, left them perilously near the danger edge of want, and supper crowds find them a little short of 'juice' even how.

Lack of cars and power will not bother the Huntington forces so much, for with their recent changes to heavier rolling stock on the University, Westlaka, Washington and Vermon lines, they are bountifully equipped with a big stock of 'out-of-dates' for just such emergencies. The Pacific Electric keeps numbers of these cars ready for use at a moment's notice, but this week there is a noticeable stir in the boneyards where the old cars are stored, and a general spirit of unrest pervades the premises. Both companies frankly assert their dread of the period, although it means money, and much money to them. Said an official yesterday: 'Tou need not quote me, but when you hear people talk about the lucky harvest of nickels' the street-car companies are going to gather, he sure that they don't know what they are talking about when they so describe it. I don't believe there is a man in the business who wouldn't smoke cheap stogies for a month if he thought his firm could avoid it. It means a tremendous preliminary endeavor, and a load of anxiety heavy enough to give a man nervous prostration. Accidents, although they have never yet occurred to mar the day, are, of course, more liable to occur at Fiesta time, when sreen hands must take cars in dangerous places, simply because of the lack of enough experienced men. All in all, the game fair tworth the candle."

Said S. B. McLenegan, the Traction's superintendent: "Those four days, from Wednesday to Saturday, are set down in black on my desk calendar. Our barns will turn out everything that can scarpe along the track, and the amount of work necessary for us will simply be enormous. As a single item, during the perades, it means the complete breaking in

for the past five years, and perhaps very few people of Los Angeles know that we now have over 2800 on the membership roll of the branch home in this county, and that there are over 1200 eligible applicants on the waiting list, with no room.

"Just at this period of our nation's history the Civil War veterans, on account of age, are finding it harder to make a living outside, consequently a larger percentage of them are drifting into the chomes. For the same reason, a greater percentage of those in the homes are drifting into the hospitals, which necessitates a new wing to the hospital each year. After about eight years the membership in the various branches will gradually be decreased by death, until later on, when the entire membership will have joined their comrades on the other side of the river. Afterward, no doubt, the grounds and buildings will be used for some valuable purpose, or deeded to the States in which they are located."

#### STARVING HORSE.

Agent of Humane Society Puts Stop to Cruelty to Dumb Beast at Sycamore Grove.

"Everything on wheels must go" is the motto of all the street-railway companies for the coming Fiesta. This year the transportation people expect to haul crowds that will be recording the transportation people expect to haul crowds that will be recording the transportation people expect to haul crowds that will be recording the transportation people expect to haul crowds that will be recording the coming more than one day's haul. The electric parade, during its four nights' duration, will make heavy traffic.

During preceding years the railway companies have been used to crowds, but owing to the natural growth of the town, the unwonted number of attractions during the coming pareant, and the large number of visitors at present in Southern California, the rush will really be themendous.

This week they have really got down to the work of brushing the dust from their old, laid-by carryalls of the cable period, the "dinky" cars, and the few remaining species akin to the obsolete Tenjale-street breed. They will all be used, and doubtless the plutocrat who growts if he is postled today in the newest of the cars will be glad of three highes of foot space on the edge of any of these ancient chariots Friday, May 8.

The Tratition Company will be hit hardest by the crowds, for they have

BAILING FOR SAN PEDRO.	

Girls who work are particularly susceptible to female ills, especially when obliged to stand on their feet from morning until night.

Day in and day out, month in and month out, the year through, the working girl tolls; she is often the bread winner of the family, and must work that others may live; whether she is sick or well, whether it rains or shines, whether it is warm or cold she must get to her place of employment and perform the duties exacted from her.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach; in consequence of frequent wetting of the feet monthly periods become painful and irregular, and frequently faint and dizzy spells, with loss of appetite, until life is a burden and it is hard work to drag about. All these symptoms point to a derangement of the female organism, and if taken in time can be easily and permanently cured.

## A Cordial Invitation to Every Sick and Ailing Working Girl.

It is to these girls that Mrs. Pinkham holds out a helping hand, and extends a cordial invitation to correspond with her. Her unrivalled record of success in treating woman's ills makes her letters of advice of untold value to every alling working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Ars. Pinkham, Lynn, Mass. Don't put off writing her until your health is wrecked.

## Grateful Words from Working Girls Who Have Been Helped.

"Draw Mrs. Pinkham: — I want to thank you for what you have done for me. I was dreadfully tired, I stand over my work all day, and no one who hasn't tried it knows how it makes your back and sides ache. I couldn't sleep, and had no appetite, but thanks to Lydia E. Pinkham's Vegetable Compound, I feel entirely different now; it is a wonderful medicine. I do not feel that my work is hard now, and I recommend your medicine to other girls who are always tired." — Miss Isabel Susers, 293 Willis Ave.,

"Dear Mrs. Pinkham: — Lydia E. Pinkham's Vegetable Compound has done so much good for the that I wish to recommend it to all girls whose work keeps them standing on their feet all day in a hot store. The doctor said I could not live and I must give up work, and stay out of doors; he did not seem to resize that a girl cannot afford to stop working. My back ached, my appetite was poor and I could not skeep; menstruation was scanty and very painful. One day when suffering I commenced to take Lydia E. Pinkham's Vegetable Compound and it helped me. I soon found that my menstrual periods were free from pain and natural; now my health is fine, and every one is surprised at the change in me, and I cannot be too grateful for what you have done for me."—Miss. Janet Paine, 530 West 125th Street, New York City.—\$5000.00 forfeit if originals of above letters proving genuineness cannot be produced.

#### DOGUS BOOKKEEPING BY PIONEER COMPANY

FINDING OF EXPERT EMPLOYED ON CONCERN'S ACCOUNTS.

J. Harvey McCarthy and Fellow Schemers Issued Hundreds of Shares of Stock to Themselves, Entering it as "Paid Out for Advertising."

Life is not a long, golden pay day ust now for one J. Harvey McCarthy, promoter" (with several other deep-"promoter" (with several other deep-thinking individuals) of the Pioneer Investment & Trust Company. To the unschooled it would seem that the pres-ident of a concern with such a pre-fentious title should have nothing to do but issue bland smiles and liberal checks drawn to "Self." Therefore it is sad that the gentleman with the so-norous name should have troubles. There isn't overmuch joy in walking on the velvet carpet of a sumptuous office-room when former employes have turned the tacks so that they protrude upyard against the soles of the Pres-ident's feet.

upyard against the soles of the President's feet.

Through his attorney the anxious head of the Pioneer aggregation has been making strenuous efforts for a week past to settle with McLaughlin, Hipwell and Grandstaff. The former, as readers of The Times will recall, accuses McCarthy of double dealing and attempts to defraud; the latter two have entered shit against McCarthy sand the Pioneer company to recover for alleged breach of contract growling out of services rendered by Hipwell and Grandstaff while they were employes of that company.

McCarthy is anxious to keep out of the courts, and with this erid in view he has labored hard for the last week to "square things" with McLaughlin, Hipwell and Grandstaff and have the charges dropped. Up to last evening the efforts had not been successful.

Assemblyman J. P. Transue, engaged as an expert accountant, is still at work on the Ploneer company's books—of which two sets were kept—in the effort to prepare a report as to the company's affairs, etc. Mr. Transue says he does not know how much longer his services will be desired. He says that thus far he has found one questionable transaction—this:

McCarthy and his associate "promoters" issued some hundreds of shares of the company's stock to themselves individually and personally, before the incorporation, and on the books they entered this stock "paid out for advertising purposes." This wrongful entry induced them, subsequently, to open and keep a second set of books.

As a matter of fact the stock in purposes at all. It was issued to the "promoters" of the company.

So this stock stood on the books as having been paid for (by advertising matter,) when in fact it represente no asset or valuable of any kind or one sideration whatsoever. So a new set of books was opened.

It is possible that McCarthy will succeed in settling with McLaughlin, Hipwell and Grandstaff, and that the whole matter will be then hushed up—if plans don't go awry. Through his attorney the anxious need of the Pioneer aggregation has

## WOMEN'S CLUBS.

Whittier Improvement.

The Woman's Improvement Club of East Whittier held its annual election Wednesday afternoon at the meeting of the club, held at the beautiful country home of Mrs. F. A. Fletcher. This is the oldest woman's club in this section and the large attendance at all the club sessions prove that club work for women is no mere passing enthusiasm with the members.

The club has done much literary work, and is active in all plans for the improvement of their beautiful ranching section. At present the extensive and systematic planting of palms, the forming of an artificial lake and the deservance of Arbor Day are receiving especial attention. The following officers were elected for the coming year, and as significant of the harmony which prevails in the club, it is worthy of note that the officers were in almost every case relicated. President, Mrs. Pannie Thompson; secretary, Mrs. I. Henry Johnson; treasurer, Mrs. E. W. Barton, The president and Mrs. Eamuel P. Mendenhall were elected delegates to the Woman's Parillament at Arusa, and these will be accompanied by a large delegation of members. The literary programme was quite short, Mrs. Elawson contributing a paper on Empere
